Try this easy way to clear your skin with Resinol Soap

with Resinol Soap and warm water, through neglect or an unwise use of working the creamy lather into the cosmetics, apply a little Resinel Ointskin gently with the finger-tips. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores.

Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear, fresh and velvety.

ment* and let it remain on ten minutes before the final washing with Resinol Soap.

Resinol Soap is not artificially colored, its rich brown being endirely due to the Resinol balsams it contains. Sold by all druggists and dealers in tollet goods. For free sample cake and trial of Resinol Olistment, write Dept. 3-P, Resinol, Baltimore, Md.

*Physicians have prescribed Resinol Ointment for over twenty years in the treatment of skin and scalp affections.

RAILROADS

PER SQUARE MILE

Density of Population Necessary for Heavy Traffic.

Fopeka Official Explains the Proposed Rate Increase.

On their harmony trips the officer, of the Santa Fe railway take the

unsaid.

J. M. Connell, general passenger agent, has prepared a review of the recent history of the passenger fare situation, which he presents at Commercial club meetings.

"Five or six years ago a wave or sentiment in favor of reduction in passenger fares spread over the country in the territory west of Buffalo, Pittsburg and Cincinnati as far west as the Rocky mountains, probably inspired by designing politicians." Mr. Connell says. "This was soon followed by legislative enactments in some by legislative enactments in some states and orders from public survice commissions in other states, reducing passenger fares in the territory de-

passenger fares in the territory described to two cents per mile.

"About two years ago the interstate commerce commission, in its decision in the so-called five per cent freight rate case, which involved freight rates in the territory east of the Mississippi river, took occasion to say, in effect, that the passenger revenue of lines in that territory was not compensatory. Shortly thereafter lines east of Cleveland, Pittsburg and Buffaio and west of Chicago and St. Louis advanced their interstate fares on the basis of two and one-half cents per mile, disregarding the combinations of state made fares. Tariffs quoting these interstate fares on the basis of two and one-half cents per mile were filed with the interstate commerce commission the interstate commerce commissions required by law and the rates wn were permitted to go into ef-

mewhat later lines in Oklahoma Somewhat later lines in Oktaonia and Arkansas constructed their inter-state fares into and through the states named on the basis of three cents per mile in these states. Protest was made by the utility commissions of Okla-homa and Arkansas to the interstate commerce commission, but the tariffs

were allowed to go into effect.
"In order to secure a heavy volume of passenger travel density of popu-lation is essential. Density of population in our eastern states is com-paratively great. For example, in New York the density of population is 264 per square mile. Passenger fare on main lines in New York is two and one-half cents per mile. In Pennsylvania the population per square mile is 181. The passenger fare per mile is two and one-half cents. Recently the public service commission has issued an order authorizing railhas issued an order authorizing rall-roads of Missouri to advance their fares to two and one-half cents per mile, effective January 1, 1916. This order was issued after a most thor-ough investigation which showed con-clusively to the commission that the rallroads of Missouri were carrying passengers at a loss. The population of the state of Missouri is 49 per square mile.

"The railroads of Kansas at the present time are receiving only two cents per mile. The population in this state is only 22 per square mile, or less than one-half that of the state of Misthan one-half that of the state of Alissouri. Application was made to the public utilities commission of Kansas some months ago for authority to advance passenger fare to three centsper mile. The decision of the commission on this application has not yet been announced."

Rock Island Changes, Charles F. Conley has been ap-pointed Rock Island live stock agent at St. Louis. P. W. Radell is appointed contracting agent at St. Louis.

Bukey Is Promoted.

It was announced at the Santa Fe ceneral offices in Topoka today that, ffective at once, B. M. Bukey, chief clerk to W. J. Black, passenger traffic manager, is appointed assistant gen-eral passenger agent. His headquarters are at Chicago.

U. P. News Stand.

Harkalow brothers' gency recently installed a news stand t the Union Pacific station in To-eka. This replaced the old stand that has been there for years. The new place has been fitted up in a medern and up-to-date way. Barka-low brothers, who are located at Omahave charge of the Union Pacific ews stands all over the system.

MEDICAL EXAM DAY

December 8 Selected in America's "Keep Well" Campaign.

The alleged Chinese custom of using

The alleged Chinese custom of using the doctor to keep people well, instead of waiting until they are stricken with illness before calling for his services, in making marked headway in the United States.

The latest practical suggestion in this line is the naming of December 3 as National Medical Examination day. This idea is being urged by the Anti-Tuberculosis associations and also by the Life Extension institute, with which former President Taft, General Gorgas, Prof. Irving Fisher, Alexander Graham Bell, and others well known, are identified.

The death rate from tuberculosis has declined nearly 50 per cent in thirty years.

thirty years.

The hope is to popularize a method of prevention which thousands have already found not only one of the best ways of prevening illness, but of raising and maintaining the standard of health and efficiency. This relates not only to individuals, but to employers. In the case of factories, stores and of-fice, Medical Examination day would be an appropriate time for employers to adout such a place for employers to adopt such a plan for the protec-tion of their workers.

AUERBACH'S NEW PLAN

Now Has Most of His Goods Forwarded by Express.

Henry Auerbach, of the firm of Auerbach & Guettel, which owns the big Palace Clothing company stores in Topeka, Kansas City and elsewhere, has adopted a new policy in the man-agement of his store. The Palace has just moved into the modern building

RELIEF CAME TO CARPENTER

public into their confidence, as it were, in practically every phase of the transportation problem. They go on the theory that the best way to tell the people their story is to tell it, and it seems that they leave nothing unsaid.

J. M. Connell, general passenger agent, has prepared a review of the recent history of the passenger fare situation, which he presents at Commercial club meetings.

"Five or six years ago a wave or sentiment in favor of reduction in passenger fares spread over the country in the territory west of Buffalo," I have suffered with catarrh of the

praise to Taniac. He said:

"I have suffered with catarrh of the head and stomach for five years. I had severe pains in my back, between my shoulders, in my lungs and in my stomach. The catarrh had gotten so bad that many times my food would not remain in my stomach, I had vomiting spells often after eating, and in concern! I was in about as had a condi-

iting spells often after eating, and in general I was in about as bad a condition as a man could possibly be.

"I have been taking Tanlac for several weeks and the pains have all left me. My stomach has not bothered me but once since I started taking Tanlac. I feel greaffy benefited so far and believe a few more bottles of the medicine will relieve me permanently. The above statement is just as given by Mr. Moon, and it should be sufficient evidence for those that are afflicted with the same kind of troubles, that Tanlac is worthy a trial.

that Taniac is worthy a trial.

Taniac is now on sale in Topeka at the Tully-McFarland Drug store, where W. C. Pope the "Taniac Man" is meeting the public daily. Taniac sells for \$1.00 a bottle three for \$2.75, or six bottles for \$5.00.—Advertisement.

which was recently finished on the which was recently finished on the site of the one destroyed by fire. Although the Palace is possessed of ample resources there is no surplus stock room in the new building. Instead of carrying a big lot of goods over from season, to season nearly everything in the store will be on display. Instead of big shipments by freight, the firm will get most of its orders by express in small shipments.

Cotton Ginning Report.
Washington, Nov. 22.—Cotton ginned prior to November 14 amounted
to 8,777,794 running bales, including
82,582 round bales and 63,477 bales of sea island, the census bureau today announced. Ginning by states: Alabama, 855,368; Arkansas, 573,68; Florida, 46,464; Georgia, 1,640,893; Louisiana, 299,675; Mississippi, 708,436; North Carolina, 523,851; Oklahoma, 331,245; South Carolina, 922,178; Tennessee, 204,439; Texas, 2,614,521; all other states, 57,126. Sea island ginning by states: Florida, 22,142, Carolina, 42,791; South Carolina, of sea island, the census bureau today island ginning by states: Florida, 22,-443. Georgia, 44,791; South Carolina,

The Selection of Proper Dress Shields

One of the First Rules of Proper Dressing Probably there is nothing that enters into the making of a dress, of which there is so much expected and so little consideration given, as the dress shield.

This should not be! Let the

Expert show you how to select shields for different garments.

Omo Dress Shields are made in many different styles, some of them especially suited for evening

Omo Shields are odorless—contain no rubber—and every pair is guaranteed. Some are lace trimmed, some covered with silk—all so dainty and light and soft that it is a real comfort to wear them. Come to our Notion Department some day this week and allow Miss Reichelt, an expert from the Omo Factory, tell you all about Dress Shields. You will gain knowledge that will be of great future value.
